About Us

At Eurasian Bridge, we place quality and compliance at the heart of everything we do.

We select products from rigorously controlled supply chains that meet the strictest European standards in terms of food safety and traceability. Thanks to smooth management of the logistics chain, we provide our European partners with export operations that are reliable, transparent, and efficient.

In this regard, we work exclusively with producers holding IFS certification or, failing that, ISO 22000 certification. Our organic products are certified under the EU Organic Regulation by an auditor accredited by the European Union.

**High Quality
Products**

**Competitive
Prices**

**Reliable Export
Services**

As a result, we guarantee every customer consistent, impeccable quality

To facilitate smooth cross-border trades, our team conducts product testing through certified laboratories that respect international and European standards, with a high level of quality.

Our export services are designed to be both efficient and cost effective. With strategic logistic partnerships, we ensure prompt, well-handled deliveries all around the world.

Customer satisfaction is our top priority, making it easy for clients to benefit from an established and trustworthy export process with Eurasian Bridge.

Dried Prunes

Hungarian variety

About our dried prunes

Uzbek dried prunes stand out for their natural sweetness and deep aromas, shaped by fertile valleys and a continental climate (hot summers, cold winters) that promotes slow ripening. Typically harvested in August, these plums yield tender, very sweet fruit. Driven by new orchards, Uzbekistan has established itself among the leading exporters since 2022.

Hungarian Variety Dried Prunes

- ▶ Sizes available for pitted (de 100 à 120 pcs / 500g)
- ▶ Top grade quality
- ▶ Available in Organic (BIO European certification)
- ▶ Available in pitted and unpitted
