

PRODUCT CATALOGUE

Dried fruit for professional buyers

OUR QUALITY ASSURANCE PROCESS

Six steps behind every shipment.

01 / QUALIFY

Certified producers

We select production sites certified to FSSC 22000, IFS Food or BRCGS Food Safety.

02 / SPECIFY

Specifications at origin

We translate the buyer's brief into production requirements, applying relevant UNECE standards and EU requirements for the product.

03 / FOLLOW

Production follow-up

Our teams follow each production run and carry out regular random checks on the goods.

04 / SAMPLE

Controlled sampling

Our teams take and seal samples using the EU method applicable to the product and requested analyses. For mycotoxins in dried fruit, this includes Commission Implementing Regulation (EU) 2023/2782.

05 / ANALYSE

European laboratory analysis

Samples from every lot are analysed by our partner, TLR International Laboratories, an ISO/IEC 17025-accredited laboratory. For each lot, the testing scope covers applicable legal requirements and the buyer's specifications. We review the results before shipment.

06 / DELIVER

Protected delivery

After release, we arrange transport with our international logistics partner, Gebrüder Weiss. Unless the product requires otherwise, we use temperature-controlled reefer transport throughout the journey to protect its quality.

THE RECORD BEHIND EACH LOT

We retain the production and test evidence for each lot and make it available to clients.

- Lot traceability
- Laboratory results
- Production follow-up reports
- Production photographs

Dried apricots

Sulphured Subkhona apricots from Uzbekistan's Fergana Valley. Their vibrant orange colour, full-bodied flavour and firm yet tender texture make them a distinctive choice for professional buyers.

PRODUCT AT A GLANCE

THAILAND / SOFT DRIED MANGO

Dried mango slices

Ripe Thai mangoes are peeled, sliced and gently dehydrated to a soft, chewy texture that does not stick to the hands. The current range is lightly sweetened and sulphured, with an authentic mango aroma and sweet-tangy flavour.

PRODUCT AT A GLANCE

TECHNICAL SPECIFICATIONS ON DEMAND

ORIGIN	Thailand
PRESENTATION	Reasonably uniform, soft dried slices; piece size as agreed, for example 10-15 g per piece
COMPOSITION	Mango 92.29%, sugar 5%, citric acid 1.70%, icing sugar 1%, sodium metabisulphite (E223) 0.01%. Contains sulphites.
MOISTURE TARGET	>15% to ≤20%
WATER ACTIVITY TARGET	<0.70 at 25°C
SULPHUR DIOXIDE TARGET	<300 mg/kg (ppm), expressed as SO ₂
PACKAGING	5 kg net in a food-grade PE bag and carton
SHELF LIFE	12 months; store in a cool, dry place
TRADE STATUS	EU general tariff regime

A no-added-sugar, 100% natural version is planned; it is not in the current range.

THAILAND / 100% STRAWBERRY

Freeze-dried strawberries

Fresh strawberries are frozen, then dried under vacuum so ice turns directly to vapour. This gentle process retains their shape, colour and flavour. With no added ingredients, they are bright red, authentic in taste, and light and crispy.

PRODUCT AT A GLANCE

TECHNICAL SPECIFICATIONS ON DEMAND

ORIGIN	Thailand
FORMATS	Whole or sliced (slices 4-6 mm wide)
COMPOSITION	100% strawberry, freeze-dried
MOISTURE	<4.0%
ALLERGENS	None of the 14 EU allergens
GMO / IONISATION	GMO-free; not treated with ionising radiation
PACKAGING	6 kg cartons with PE bag
SHELF LIFE	12 months from date of production; store in a cool, dry place
TRADE STATUS	EU general tariff regime

INTERESTED IN THIS PRODUCT?
